

SINOPSIS JUDUL BUKU TERKINI

BULAN JULAI 2025
Perpustakaan INSPEN

SINOPSIS JUDUL BUKU TERKINI BULAN JULAI 2025

Pengenalan

Sinopsis Buku Terkini ini dihebahkan kepada YBrs. Sr/ tuan/puan bagi tujuan penyebaran dan mempromosikan judul-judul terkini yang berada di Perpustakaan INSPEN. Ia boleh dirujuk/dipinjam di Perpustakaan INSPEN. Sebanyak 10 judul bahan terpilih dari pelbagai subjek meliputi pengurusan dan kepimpinan, kewangan, pengurusan sumber manusia dan pelbagai lagi untuk bacaan YBhg. Datuk/Datin/Dr./Tuan/Puan.

Objektif Aktiviti

- i. Menggalakkan budaya membaca di kalangan warga INSPEN
- ii. Merapatkan warga kerja INSPEN dengan koleksi terkini perpustakaan
- iii. Mempromosi perkhidmatan terkini yang disediakan oleh Perpustakaan untuk makluman warga kerja INSPEN

Lokasi Bahan

Koleksi buku-buku di dalam senarai ini boleh di dapati Perpustakaan INSPEN. Untuk maklumat lanjut, boleh hubungi kaunter perpustakaan melalui 03 8911 8800 / 8911 8888 sambungan telefon 2018

Penutup

Mudah-mudahan dengan usaha ini dapat meningkatkan dan menyemarakkan budaya membaca di kalangan warga INSPEN umumnya.

INTANGIBLE ASSET VALUATION GUIDANCE NOTES EDITION 1/2017

SYNOPSIS

This book provides guidance notes on valuing intangible assets such as intellectual property, goodwill, licenses, and brand value, focusing on professional valuation standards and methodologies used in Malaysia.

CP BS101: CODE OF PRACTICE FOR BUILDING INSPECTION REPORTS, 3RD EDITION

SYNOPSIS

CP BS101: Code of Practice for Building Inspection Reports (3rd Edition) is a comprehensive guideline published by the Royal Institution of Surveyors Malaysia (RISM). This code provides standardized procedures and reporting formats for building inspections in Malaysia. It outlines essential requirements, recommended practices, and minimum standards for carrying out thorough and professional inspections on various types of buildings.

The publication covers aspects such as inspection methodology, reporting templates, and compliance with relevant Malaysian building laws and regulations. It serves as an essential reference for surveyors, engineers, architects, building inspectors, and professionals involved in property assessment, maintenance, and valuation.

This edition reflects updates aligned with current industry practices, aiming to enhance the quality, consistency, and reliability of building inspection reports nationwide.

MALAYSIAN STANDARD METHOD OF MEASUREMENT OF BUILDING WORKS; ROYAL INSTITUTION OF SURVEYORS MALAYSIA

SYNOPSIS

The Malaysian Standard Method of Measurement for Building Works is an authoritative reference developed by the Institution of Surveyors Malaysia (ISM). It establishes a systematic and uniform approach for measuring building works in the Malaysian construction industry. The standard provides clear definitions, measurement rules, and detailed classifications to ensure consistency and accuracy in preparing Bills of Quantities and cost estimates.

This publication is essential for quantity surveyors, contractors, consultants, and professionals involved in construction procurement and cost management. It enhances clarity in tender documentation, minimises disputes, and serves as a benchmark for best practices in building specifications and measurement standards across Malaysia.

SUSTAINABILITY IN ENERGY AND BUILDINGS 2023: 378 (SMART INNOVATION, SYSTEMS AND TECHNOLOGIES)

SYNOPSIS

This book contains the proceedings of the 15th KES International Conference on Sustainability and Energy in Buildings 2023 (SEB2023) held in Bari, Italy, during September 18–20, 2023, organized by KES International. SEB23 invited contributions on a range of topics related to sustainable buildings and explored innovative themes regarding sustainable energy systems. The conference formed an exciting chance to present, interact, and learn about the latest research and practical developments on the subject. The conference attracted submissions from around the world. Submissions for the full-paper track were subjected to a blind peer-reviewed process. Only the best of these were selected for presentation at the conference and publication in these proceedings. It is intended that this book provides a useful and informative snapshot of recent research developments in the important and vibrant area of sustainability in energy and buildings.

APPLIED VALUATION: A PRAGMATIC APPROACH

SYNOPSIS

Valuation is part art and part science. While there are wrong ways to value a stock, there may be no single correct way to value a stock. Applied Valuation: A Pragmatic Approach helps to bridge theory and how valuations can be implemented in practice. It offers pragmatic solutions that are in line with valuation principles and explains the implications of certain approaches and rules of thumb that are commonly used in practice, so the reader understands why or when such methods make sense.

Valuation is a highly case-specific exercise and slight changes in the conditions at the time of the valuation could change the approach and inputs that an analyst should be using. This book discusses how to develop the intuition and skills that would allow you to determine the appropriate or reasonable approach to take regardless of what situation may arise in the future.

Also including in-depth case studies of Walmart and Tesla, this book examines concepts like projections, discount rates, terminal value, and relative valuation to equip students, practitioners, and the general reader with a better understanding of the methods that will help them build their own framework to value businesses and analyse valuation issues.

MALAYSIA CASE STUDIES OF URBAN AND REGIONAL PLANNING

SYNOPSIS

This book discusses urban planning and regional development practices in the twentieth century, and ways in which they are currently being transformed. It addresses questions such as: What are the factors affecting planning dynamics at local, regional, national and global scales?

With the push to adopt a market paradigm in land development and infrastructure, the relationship between resource management, sustainable development and the role of governance has been transformed. Centralized planning is giving way to privatization, not only in the traditional regions but also in newly emerging regions of Asia, Africa and Latin America. Further, attempts are being made to bring planning related decision-making closer to the people who are most affected by it.

Presenting a collection of studies from scholars around the world and highlighting recent advances in the field, the book is a valuable reference guide for those engaged in urban transformations, whether as graduate students, researchers, practitioners or policymakers.

HANDBOOK FOR BUILDING CONSTRUCTION: ADMINISTRATION, MATERIALS, SYSTEMS, AND SAFETY, 1ST EDITION

SYNOPSIS

This comprehensive handbook serves as a practical guide to the core principles and practices of building construction, covering essential aspects such as project administration, construction materials, structural systems, and site safety. Designed for both students and professionals, the book offers a well-rounded understanding of how construction projects are planned, executed, and managed.

Key topics include:

- Roles and responsibilities in construction administration
- Characteristics and selection of construction materials
- Building systems integration (structural, mechanical, electrical)
- Occupational safety standards and risk management

Rich with diagrams, examples, and case studies, this first edition is a valuable reference for construction managers, site supervisors, engineers, architects, and technical students involved in the built environment.

AN INTRODUCTION TO BEHAVIOURAL ECONOMICS, THIRD EDITION

SYNOPSIS

The third edition of this successful textbook is a comprehensive, rigorous survey of the major topics in the field of behavioural economics. Building on the strengths of the second edition, it offers an up-to-date and critical examination of the latest literature, research, developments and debates in the field. Offering an inter-disciplinary approach, the authors incorporate psychology, evolutionary biology and neuroscience into the discussions. And, ultimately, they consider what it means to be 'rational', why we so often indulge in 'irrational' and self-harming behaviour, and why 'irrational' behaviour can sometimes serve us well.

A perfect book for economics students studying behavioural economics at higher undergraduate level or master's level. This new edition features:

- Extended material on heuristics and biases, and new material on neuroeconomics and its applications
- A wealth of new topical case studies, such as voting behavior in Brexit and the Trump election and the current obesity epidemic
- More examples and review questions to help cement understanding

Accompanying online resources for this title can be found at bloomsburyonlineresources.com/an-introduction-to-behavioral-economics. These resources are designed to support teaching and learning when using this textbook and are available at no extra cost.

BUILDING CONSTRUCTION ILLUSTRATED, 6TH EDITION

SYNOPSIS

The #1 visual guide to building construction principles, updated with the latest materials, methods, and systems.

For over four decades, Building Construction Illustrated has been the leading visual guide to the principles of building construction. Filled with rich illustrations and in-depth content by renowned author Francis D.K. Ching, it offers students and practicing professionals the information needed to understand concepts in residential and commercial construction, architecture, and structural engineering.

This Sixth Edition of Building Construction Illustrated has been revised throughout to reflect the latest advancements in building design, materials, and systems, including resilient design, diagrids, modular foundation systems, smart façade systems, lighting sources, mass timber materials, and more. It features new illustrations and updated information on sustainability and green building, insulation materials, and fire-rated wall and floor assemblies. This respected, industry standard guide remains as relevant as ever, providing the latest in codes and standards requirements, including IBC, LEED, and CSI MasterFormat. This Sixth Edition:

- The leading illustrated guide to building construction fundamentals, written and detailed in Frank Ching's signature, illustrative style
- Includes all new sections on resilient design; diagrids; modular foundation systems; smart façade types and systems; lighting sources and systems; and mass timber materials, cross laminated timber (CLT) and nail laminated timber (NLT)
- Revised to reflect that latest updates in codes and standards requirements: 2018 International Building Code (IBC), LEED v4, and CSI MasterFormat 2018
- Includes updated information on sustainability and green building; insulation materials; stair uses; stoves and inserts; and fire-rated wall and floor assemblies

Building Construction Illustrated, Sixth Edition is an excellent book for students in architecture, civil and structural engineering, construction management, and interior design programs. Ching communicates these core principles of building construction in a way that resonates with those beginning their education and those well into their careers looking to brush up on the basics. Building Construction Illustrated is a reliable, lifelong guide that practicing architects, engineers, construction managers, and interior designers, will turn to time and again throughout their careers.

PRACTICE MAKES PERFECT: BASIC ENGLISH, PREMIUM THIRD EDITION (3RD)

SYNOPSIS

Get the skills you need to read and speak English with confidence! Learn how to read and speak English with this easy-to-use workbook. Dozens of manageable, bite-sized lessons take you through the basics of the English language. Three-page units cover each subject, which can be completed in just 20 minutes. Each lesson covers a single grammar concept and is supported by many clear examples. The book includes tons of exercises help you practice your new language skills. Plus, you'll also have access to streaming audio recordings of the most difficult English sounds to pronounce. Practice Makes Perfect: Basic English, Premium Third Edition features:

- Lessons and exercises to expand your vocabulary
 - Review exercises to measure your progress
 - Fun word search puzzles and scramble sentence exercises
 - An answer key for all the exercises in the book
 - Streaming audio of numerous exercise answers, available online and via our exclusive McGraw-Hill Education Language Lab app
 - Additional audio recordings of the most difficult sounds to pronounce in English
- All aspects of grammar and basic vocabulary that a first-year student needs to know
